

NEW LOOK AND IMPROVED PERFORMANCE

Action Can is improving the performance of selected products to continue to meet and surpass customer expectations.

These improvements have been driven by market research combined with additional R&D resources to bring to market enhanced formulations of BC-90 Brake & Clutch Cleaner and CS-90 Copper Anti-seize that deliver real-world performance improvements.

Please contact our Distributor Support Team on 01942 713 667 for additional information, product images or free product samples (subject to availability).

BC-90 BRAKE & CLUTCH CLEANER

Improved solvency power for faster cleaning

- Now with enhanced cleaning power
- Effective and fast removal of grime, brake dust, dirt, fluids/oils and contaminants
- Does not leave a residue
- May be used as a general-purpose solvent degreaser

No need to update your systems. Product codes remain the same.

CS-90 COPPER ANTI-SEIZE

Improved copper content for longer-lasting performance

- Protects against harsh corrosive environments
- Reduces friction and wear
- Enables easy assembly and disassembly
- Prevents seizing, galling and stripping of threaded fasteners
- Non-hardening and non-dripping
- Water resistant
- Free from lead and silicone
- Can be used on all metals
- Very wide operating temperature range

No need to update your systems. Product codes remain the same.
